

Intent

At Muxton Primary School we provide a high quality EYFS education giving children a secure and confident start to their school life. We are committed to nurturing a lifelong love of learning as we strive for high standards and seek to foster resilience and independence for all of our children.

We aim to provide the essential knowledge that children need to prepare them for their future success and to give our children the best possible start to their education.

We carefully plan our curriculum to meet the following aims:

- Provide the children with opportunities to develop resilience, confidence and a positive attitude towards their learning. We recognise that they arrive at Muxton with existing knowledge, skills and interests and strive to ensure that we build on this foundation.
- Ensure a smooth transition from nursery into school through discussions with nursery staff and parents followed by introductory visits from the children.
- Provide a curriculum which engages and fascinates the children, offering opportunities to develop their learning in a variety of ways.
- Ensure we provide a safe and nurturing environment to support, scaffold and inspire the children to achieve their potential.
- Support our children to develop cognitively, socially and linguistically.
- Enable our children to cooperate, share and behave well together.
- Provide expertise and resources which support children who need additional help to access the curriculum.
- Provide parents/carers with the opportunity to develop their child's learning at home.
- Develop knowledge and understanding of their community and the wider world.
